

Drill: Offensive End Play - Switch

F1 has the ring, circles behind net and tells F2 "Leave" or "Switch".

F1 circles net as F2 leaves over free play line.

F3 seeing F2 leaving, crosses to other side of imaginary centre line (length of ice)

F1 passes towards D1 who comes in fast and goes directly at the net.

F3 can receive a pass.

F1 also heads for the net.

Variation: F1 goes behind D1 who can now drop the ring to F1 for screen shot.
